**Special Meeting
of the U. F. A.**
Sat. March 15

There will be a special meeting of the UFA on Saturday afternoon of March 15th, at 2.30 o'clock in the Co-op hall. Reports of the delegates to the recent conventions of the Grain Growers Association and the UFA will be given. Particular attention will be given to the matter of political action on the part of the farmers. Members of the UFWA are invited to attend. The resolution passed by the UFA Convention which brings this before us is as follows:

Whereas our organization has reached a state of development in freedom from partisanship in mobilization of thought and numerical strength that political action not only becomes possible, but is now necessary to our continued progress and

Whereas the nature of this organization, and the very ground work of its development, demands that it should continue to be independent of any class or party, and free from any sectional influence to the end that purely democratic and independent political action shall be promoted.

Now therefore be it resolved: 1—We urge the locals in the various federal districts to take immediate steps looking to the organization of districts for the purpose of holding at least one convention each year in each of such districts, such convention to continue one or more days as circumstances may require. 2—The Central UFA office shall upon request of 10 per cent of the locals in any district render whatever assistance it can in calling and arranging for such convention. 3—The primary purpose of such convention shall be to discuss ways and means of taking independent political action and selecting an independent candidate. The convention may, however, discuss and deal with any other district UFA matters. 4—Each convention shall be responsible for its actions in putting a candidate in the field, in financing and electing such candidate, but nothing in this resolution shall prevent any officer of the provincial organization giving what assistance he can when called upon. 5—Men and women will both be eligible to participate in such convention with equal privilege to such extent as the law allows. 6—The several district convention may make arrangements through a joint committee through the Central UFA office for calling a provincial convention when and for whatsoever purpose they may deem necessary."

The resolution was moved by P. Baker and seconded by James Weir.

**Another Vote On
Prohibition Likely**

Ottawa, Feb. 27.—It is understood that the question of prohibition was under consideration in the government caucus today. It was suggested by many members that when a plebiscite is taken subsequent to the return of Canada's fighting men to their homes, several questions should be submitted to the people. It was argued that they should be asked whether they desire bone-dry prohibition or the sale of light wines and beers.

Another suggestion was that the people should decide whether the sale of such beverages that may be voted for, if any, should be in the hands of licensed private citizens or under government control, also whether bars should be allowed or the sale confined to government dispensaries or privately owned stores. There was no definite announcement by the government as to what course would be adopted when the referendum is held, or whether there will be further consideration of that matter at caucuses in the future.

News From Everywhere

The 49th Edmonton Battalion is expected to reach Edmonton about March 15th. The city is preparing a great reception.

Princess Patricia of Connaught and Commander Alexander R. M. Ramsay, R.W., were married at noon, Thursday, February 27th. The wedding presents which are still arriving number nearly 700, from homely market baskets to priceless diamonds. No other social event during the war has caused such public interest.

WASHINGTON, Feb. 28.—Preparation for President Wilson's return to France was completed today at the White House. He will sail on the George Washington on Wednesday morning.

WINNIPEG, Feb. 28.—D.O. Carlson, of Rapid City, dropped dead during the course of a dance here last night. The deceased, who was 25 years old and unmarried, had just recovered from an attack of influenza.

WASHINGTON, Feb. 28.—Casualties on American railroads during 1918 resulted in the death of 9,567 persons and the injury of 70,970, the interstate committee announced today. During the previous year 9,476 lives were lost and 66,982 persons were injured.

TOFIELD, Feb. 28.—Matt Lemm of Holden was today committed for trial at Edmonton on a charge of having in his possession illicit stills. He was allowed bail of \$4000 and two sureties of \$2000 each. J. A. McCaffery represented Lemm at the preliminary here.

Little Red School-House Must Go Expert Avers

We must destroy the small one-room school altogether, and make it into a large community school. The small school has outlived its usefulness except perhaps on the remote fringes of districts where pioneer conditions prevail," declared Dr. David W. Foght of the United States bureau of education, at the final session of the thirteenth annual convention of the Manitoba trustees' association in Westminster church, Thursday afternoon.

Consolidation was the solution of the school problem. Dr. Foght declared at the close of his address, Manitoba was leading the way in this respect and he hoped to find 1,000 such schools here on his next visit. A standing vote of thanks was accorded Dr. Foght at the close of his address.

Saskatchewan's offer of closer cooperation with Manitoba in the matter of trustees' conventions was heartily endorsed and the executive of the M.T.A. given full power to act in this matter.

A motion to hold the next annual convention at Brandon was voted down by a small majority.

C.F. Mathews moved that the department of education be asked to assume the same share of the expenses of transportation of children to and from rural schools as it does in the case of consolidated schools. This motion was tabled after considerable discussion. Another motion lost after lengthy discussion was one seeking to substitute a single vote instead of a two-thirds vote now necessary in the case of a union district wishing to come under a municipal school board.

A motion asking the department to supply free text books in the schools up to the entrance instead of only to grade four as under the present system was approved.

A motion to raise the entrance age of a child into the public school to seven years was tabled.

J.A. Marion, president of the Union of Municipalities, brought greetings from his organization.

A vote of thanks was accorded the management of Westminster church for the free use of the building.

49th Canadians Will Sail For Can. March 12

OTTAWA, Feb. 20.—The militia department announced today that it is understood that the dispatch to the Third division, under command of Major-General F.O.W. Loomis, C.B., of C.M.G., from England, will commence about March 12. Personnel who previously served with the units of this division in France and are now in England who are proceeding to dispersal stations to which their units have been allotted in Canada, will be given an opportunity to rejoin their units and return home with encouragement.

Units in which the west are interested and their dispersal areas are as follows:

Seventh Canadian Infantry brigade, P.P.C.L.I., Ottawa.
49th battalion, Edmonton.
Fifth Canadian infantry brigade, Ist C.M.R. battalion, Brandon.
Second C.M.R. Battalion, Victoria.
Ninth Canadian Infantry brigade, 43rd battalion, Winnipeg.
52nd battalion, Port Arthur.
Tenth brigade, C.F.A.
38th battery Winnipeg.
29th Battery, Medicine Hat.
No. 8 field ambulance Calgary.
No. 10 field ambulance Winnipeg.
No. 3 company, 3rd Canadian division train Winnipeg.
No. 4 company, 3rd Canadian division train Calgary.
Third Canadian division, M.T. Co., Winnipeg.

All changes of advertisements must be in not later than Tuesday to insure change for that week.

Friday, March 7th 1919

Work of Repatriation.

The work of Repatriation is no one-man's job—it is the duty and the privilege of every citizen of the Dominion of Canada.

The war was not the work of the soldiers alone—it was the task of every Canadian, and it is our pride that Canadians as a whole recognized that, and set a standard for self-sacrifice, intelligent joyful service not surpassed in any country.

The war was not yet won. These soldier boys who have been in the midst of alarms for four years and more still suffer from its effects, although many, very many are coming home physically sound. These boys must change their whole scheme of living. Their outlook in life must be changed. To do so, they will need help. They will need sympathetic, kindly treatment. That is where everybody can help. Not all have jobs to offer. These men must have satisfactory work at a proper compensation. A body of public sentiment must be created in favor of giving the returned man every possible chance to make him self the self supporting man he wants to be. Meet him when he comes home. Give him the glad hand. Smooth out his little difficulties. Be kindly, sympathetic with him, so he may get back to that place in the community to which his talents fit him, but which his experience is a sense unfitted him.

Repatriation is a big problem, but the solution can and will be found in patient kindly treatment.

The Land Settlement scheme is under way. The Government will secure land for the men who want to go on the farms. The Provincial Governments are co-operating in a most splendid manner. Soldier farming communities' will shortly dot the land. There is no danger of a failure in this proposition.

"We will go for the limit for the Returned Men," is the substance of a resolution passed unanimously by the Saskatchewan Legislature at the session just closed. That is an excellent motto for all Canadians. The limit not too much.

The Repatriation Committee has named Major Beresford Topp, D.S.O., M.C. with bar, as its representative in England. It is absolutely necessary to acquaint the men coming home with the plans adopted by the government for their re-establishment into civil life. It will prevent their worrying, and will enable the men to make their plans accordingly. Major Topp is a first class fighting man, with four decorations for gallantry, a newspaperman of experience and ability, and his work will undoubtedly be most productive of good.

It. Charles W. Cavers, formerly editor of the Sunday World, Toronto, has been appointed to take charge of the publicity department of the Soldiers' Land Settlement scheme. Mr. Cavers was in France two years, being gassed, but returned during the fall of 1918. He is a capable soldier, and an experienced newspaperman.

Employment offices have been installed in over 80 cities in Canada, and others will be opened at once. It is the intention of the Repatriation Committee to have employment agencies in every city with a population of over 10,000, if there

is need of such offices. Returned men are put in charge, and every effort is being made to bring employers and returned men in touch with each other. Excellent reports are being received of the work being done.

A Repatriation League has been formed in Toronto with Brig. Gen. John A. Gunn as president. This league has been approved of by Mr. H. J. Daly, chairman of the Repatriation Committee, and will divide the work, and share the responsibility of getting returned men into positions.

Municipalities are doing great work in connection with receptions to returned men. The councils have as a rule entered into this most heartily, with beneficial results. The majority of the municipalities are also planning for civic improvements on a large scale. This will give employment to many men, and will help solve the problem of unemployment.

There is a cry for farm labor at the present time. It is expected that when spring seeding arrives, many men will be discharged from the army, allowing them to take up their former occupations on the farm.

Increased production is essential to Canada's prosperity and the expectation is that the shortage will not be so acute when these men get back.

Billion Dollar Wheat Guaranteed Bill Is Adopted.

Washington, Feb. 28.—The administration measure appropriating \$1,000,000,000 to fulfill the government's guaranteed wheat prices to the farmer for the 1919 crop, was passed at 12:30 o'clock Friday morning by the senate without material amendment and now goes to conference.

More or Less Funny

"Don't kiss blondes" says a leading Boston dentist. Yet there's lots of guys around here who are willing to take a chance.

One of the young fellows around here says he will never try to kiss a girl with a lantern jaw in the dark. He tried it once and her face lit up and gave him away.

Somebody who doesn't know the Red Cross it as busy as ever sends us letters suggesting that the Red Cross ladies might continue their activities and knit a few pairs of socks for the men folk at home.

The story is told of a lady here who decided to tell her children that there is no Santa Claus, thinking it best to break the news to them gently. After she had sorrowfully explained that it was all a hoax, they exclaimed, "Well, are you just finding that out?"

The girls around here are fast adopting military terms. One of them, thinking she has made a hit with a fellow that has taken her to the show a couple of times, reports him as "wounded, degree undetermined."

A party of ladies was gathered at one of the homes here recently, and in order to make it interesting somebody suggested that each describe just how her husband proposed to her. The suggestion fell like a wet blanket on the party and the motion failed for want of a second. We hate to give it away but the fact was that it wasn't the husbands that did the proposing, so there was nothing to discuss.

Tofield Girls Not A Bit Nice Think Vegrevillians.

The Girls Hockey Club paid a friendly visit to Tofield on Friday evening of last week and engaged in hostilities with the Tofielders. Hostilities is the right word, for the Tofield lassies declared war right from the start and biffed our darlings by some 7 to 0. It is reported that the game and its aftermath were not free from acrimony and that our pets did not receive that courtesy which is expected in these alleged friendly contests. Begorra, they didn't even get a free lunch although the Tofielders sat in one themselves but failed to invite the visitors. It was a sad, sad time; indeed it was. Even the Tofield police took a back at the unhappy Vegrevillians.—Vegreville Observer.

"History in the Making"
Say Alberta Stock Breeders

Westerners are still making records. Stock shippers and railroad men co-operated recently to make a mark that will take a lot of beating.

The biggest trainload of livestock that ever left Edmonton was shipped from that city to the Barton Cattle Co., Pierre, South Dakota, a few days ago. Quick transit was desirable so the G.T.P. took over the shipment and made the entire run in just over thirty-four hours, including a stop of one hour and twenty-five minutes at a divisional point.

There were thirty-three cars in all, and this performance speaks volumes for the superb condition of roadbed and rolling stock. There were 837 head of cattle, valued at \$85,000.00, in a train about one-third of a mile long. Alberta stock shippers are elated over this record, and the Edmonton papers term it "History in the Making."

The Barton Cattle Co. expect to continue similar shipments twice monthly. As high as 13¢ was paid for some of the stock in this shipment.

Dairyman Plan To Boost Up The Dairy Industry.

Calgary, Feb. 27.—The importance of education to the producer, the manufacturer and also to the consumer, with regard to the dairy industry, was insisted upon by every speaker at the meeting of the Alberta dairy convention this morning. Dairy Commissioner Marker advocated the establishment of locals similar to those of the UFA to look after dairy interests in the different districts.

Daniel Morkerberg, president, spoke briefly upon the work already done in organizing the Dairyman's association of Alberta. The constitution and by-laws were read and adopted by the members present.

In speaking of the National Dairy Council, Geo. A. Putnam, Toronto, secretary of the council, said that the success of council depended upon the local organizations.

The National Council was created for the purpose of co-ordinating the work done by the provincial organizations, Mr. Putnam said.

The National Dairy Council, Mr. Putnam added, would justify its existence by the publication of literature dealing with dairy problems by judicious advertising and by educating the consumer upon the food values of milk and milk products.

L.A. Gibson, dairy commissioner of Manitoba, said in his province dairying was coming into its own, not only in the northern section, but in the southern section, which had always been the grain-growing section.

P.E. Reid, dairy commissioner of Saskatchewan, reported conditions in Saskatchewan with regard to the gradual and increasing substitution of dairying for the raising of grain.

Ryley Resident Is Accidentally Killed In A Wind Mill.

Ryley, Alberta, Feb. 28. Gus Anderson was accidentally killed yesterday on his farm here. He was working with the machinery of his power windmill when it is supposed his clothes caught in the shaft.

He was alone at the time and was discovered late by his little daughter who was sent by her mother to find out why he was delayed.

Mr. Anderson was one of the early settlers here, and was well known in the district.

He leaves a wife and five children, also one brother, Ernest, living here.

Parcel Undelivered.

The postmaster has received a notice that the department is holding a parcel mailed to Pte Joe Krenelka, No. 3210390, No. 6 Co. Cavalry Draft, Krieger Park Camp, Army P.O. England. As there is no name on this parcel indicating who sent it, the postmaster would like the sender to call and give their name.

Teach the Children to Save

Habits are acquired early in life. Children, who are taught the value of money and the habit of saving, grow up into good business men and capable women.

The easiest way to teach children to save is to start a Savings Account for each child (\$1.00 each is sufficient). After a child has saved another dollar to make an additional deposit, he or she will have a better appreciation of just what a dollar stands for, and how much work and self-denial it represents.

A Good Farm

IS WORTH GOOD BUILDINGS

Any farm is good that provides a living for the family. Comfortable buildings help to make a poor farm good and a good farm better.

Even the land that has been ruined and "turned to the Lord" may be brought back to life by the aid of live stock; but first you must have buildings and fences to make the live stock comfortable.

Each farm is shy a building or two, and most farms need more fencing. Fences for range, health and pasture; barns and stables for storage and winter feeding.

If animals require all their feed to keep them alive and warm, then the grain is being burned for fuel, while the animals are marking time. Time may not be much of an object to the animal, but it is to the owner.

A Note of Confidence

In these days of unrest, of speculation as to the future, of forbidding even as to what the future holds for Canada in the face of a period of economic and social upheaval and reconstruction which will likely be marked by much unemployment and in which an enormous increase in taxation must be laid on the shoulders of the people, it is gratifying to find a note of confidence and reassurance sounded. And such a note has been sounded in the most unexpected quarter, sounded not in words, perhaps, but in a more convincing manner—by action.

It is notorious that capital is timid, that financiers are fearful, that bankers and building institutions are ultra-conservative, yet it is the chartered banks of Canada which at this time of uncertainty have sounded a note of confidence and are taking the lead in a forward movement for the future. It is so surprising and unexpected coming from such a quarter as to cause amazement and lead one to search for the reason of it.

The attitude of the banks of Canada today is in sharp contrast to their attitude five or six years ago. Then they were enforcing curtailments of credits, and in the summer and winter of 1913 put restrictions on all commercial borrowings. The loan boom in the West had collapsed; the great era of transcontinental railway construction and general building activity and large municipal undertakings was over; the banks were "carrying" many of the great industrial and commercial houses of Canada; the money markets of Great Britain were practically closed to further Canadian borrowings; New York financiers and financial journals were openly hinting at disaster and bankruptcy in the Dominion; our export trade was not keeping pace with our increasing volume of imports. The banks shut down on all schemes of further expansion.

Then came the war. Nevertheless the Canadian banks stood the strain well, and were able not only to finance the business of the country and the requirements of the government, but advanced huge credits of hundreds of millions of dollars to Britain. Much criticism of the banks is heard—but doubtfully justified—but it must be said to their credit that they proved a tower of strength to Canada and the Empire throughout the war.

The war is all but over. The time

of reconstruction, readjustment, is upon us with all its possibilities of trade recession, unemployment, and general commercial uncertainty. Yet it is at this time that the chartered banks of Canada are arranging to increase their capital, increasing dividends, opening new branches throughout the country, and, most significant of all, opening branches in France, Russia and the countries of South America. If existing capital was sufficient to enable the banks to "carry on" during the strain of the war and a period of tremendous industrial activity, why do they now require more capital if trade is to be restricted? Does not their present policies of expansion indicate that, from all the sources of information at their command, the head officials of the banks are rather convinced that a new and greater era of business development is opening for Canada? It would certainly seem so.

It is beyond all question that during the war Canada increased her productive capacity enormously, in agriculture, in manufacture, and in other directions. Manufacturers gained valuable knowledge in the technique of production and vastly improved their methods. Even with a considerable falling off from the high water mark of war exports during the past year or two, their exports would still far exceed those of pre-war days.

As a result of the war, and the grim struggle by this Dominion, Canada has gained for herself a new place in the eyes of the world. This country is "on the map," so to speak, as never before, and nations which had ignored Canada in the past are almost certain to look our way and trade with our people to an ever increasing extent as the years pass and conditions become more normal. At least the banks seem to think so and are preparing for it.

Possibly the greatest criticism of our banks in the past has been that they did not appreciate the full importance of assisting agriculture nor recognize the necessity of adopting a more sympathetic and liberal policy in extending credit on reasonable terms to farmers. It is to the credit of the Canadian banks, however, that money has and is being supplied to agriculturists at more reasonable rates of interest than have been supplied our neighboring farmers across the border, the latter being obliged to pay from 10 to 12 per cent for money borrowed from the State banks. In the forward movement upon which they are embarking aid in their new policies of expansion, the banks make adequate provision for the rapid development of agriculture they will do much to remove existing grievances and go far towards silencing criticism. At the same time they will be materially assisting in laying a solid foundation for the future prosperity of Canada, and a foundation upon which a strong industrial and commercial structure can be safely erected.

No Alimony—Just a Separation
Peaceful, quiet separation, no damage done, everybody happy again—that's the situation when you divorce your wife with Putman's Corn Extactor. Acts like magic—don't use any but "Putman's"—it's the best, 25c at all dealers.

Need Ships for Lumber

Vancouver, B. C.—Cabled advice from London reaching Vancouver, indicate that shortage of ships is standing in the way of the placing of large timber orders by the British authorities in this province. It is particularly difficult the salvaging of the immense quantities of high class spruce logs lying in the water or in the woods of the northern coast. Strenuous efforts are being made to overcome this difficulty, says the cable, and the department of lands has requested the earnest support of the department of marine at Ottawa that every effort be made to provide Canadian vessels.

Amsterdam.—A band of marauders in the vicinity of Essen, according to the Vorwärts of Berlin, destroyed the airship and other outlets of a coal mine and imprisoned 600 miners who were at work at the time. It will be impossible to release the miners for a fortnight. The explosive magazine of the mine was also pillaged by the band.

Old Folks' Coughs, Catarrh, Bronchitis, Quickly Cured

T. K. Tells of a Method That
Cures Without Using
Drugs

Elderly people take cold easily. Unlike young folks, they recover slowly. They often seem to die of middle life disease.

Cough Syrups seldom do much good because they upset digestion. Any doctor knows that a more effective treatment is CATARRHO-ZONE, which heals and soothes the irritated surfaces of the throat.

Using CATARRHOZON you don't take medicine into the stomach—you simply breathe into your nose and mouth with very balanced vapor so full of healing power that colds, catarrh and bronchitis disappear almost instantly.

The germ-killing, bactericidal vapor mixes with the breath, descends through the throat, down the bronchial tubes, and finally reaches the deepest air cells in the lungs. All parts are soothed with rich, pure moisture. CATARRHOZON will not be syrup; the affected parts would "result" through numbing the stomach with drugs.

A CATARRHOZON inhaler in your pocket or purse enables you to stop a cold with the first sneeze. Large size costs \$1.00 and supplies treatment for two months, small size, 50c; trial size 25c; all stockkeepers and druggists, or The CATARRHOZON Co., Kingston, Canada.

(Continued)

Strangely enough, though there seemed to be no sound, he heard the means of ventilation save the door, which then closed behind them, the air felt fresh and wholesome—after a few seconds they realized that there was a light coming from somewhere, scarcely noticed, but enough to enable them faintly to distinguish one another's figures.

Claude pointed to one of the walls of the room. He who had stood right inside monsieur's way, "This paneling is full of holes. The light is coming in from the next room. From the other side they just look like worm holes in the paneling, but they were made by insects hundreds of years ago, so that whatever went on in the next room could be heard in here. To your right there is one hole larger than the rest, through which you can just see into the next room. Look now. Are they all there?"

Monsieur applied his eye to the tiny aperture. "No," he whispered back. "One is still absent."

"I wish you would wait in silence," replied the other. "For the love of heaven, make no noise."

For some time they waited, and then monsieur asked in a hushed murmur: "Is there any door leading from here into the next room?"

"Yes," Claude replied. "But it hasn't been opened for years, and it might not work now. Why?"

"It might be necessary to use it," said monsieur. "Show me where it is."

Claude guided the other's hand along the wall till it came in contact with a tiny knob. "You press that," he instructed, "and the door, slides back."

Meanwhile Charles had been watching through the eyehole. Suddenly he touched monsieur's arm.

"They are all assembled," he whispered. "We must listen."

Stealthily the three men drew closer to the wall, and all listened intently.

In a room in the old French chateau, seven men were seated round a table. Three were lit by candles set in elegant brass candlesticks. Its oak-paneled walls, the low oak ceiling was black with age, the high, diamond-paneled windows were hung with heavy old tapestry, priceless and worn. The room was bright, the long fire was burning brightly, its dancing flames reflecting themselves in the polished steel of two massive dogs.

On the floor was a somber carpet, age old, worn with the passing of innumerable feet.

Outside the wind wailed and moaned, the rain beat fiercely against the closed casements, seeming at times as though its force would shatter them. Despite the general gloom of the fire, and the glow of the many candles, the whole room seemed wrapped in sombre shadow, and the faces of the seven men at the heavily-carved table were strangely indistinct.

As the seven men, tall and slender, stood waiting, the only things in the room which seemed alive, were

four horrible dragons' heads, carved out of the black oak of the high mantelpiece. These caught the light of both fire and candles, and each fresh flicker which shone on them made the grimacing of their faces change, each seeming to wear a different expression, though all were really the same. Their eyes all were the only things that looked alike, and they stared threatening and baleful, at the human inhabitants of the room.

A clock in some distant place rang out the hour of ten with melancholy insistence, and the silence broken thus by the men spoke:

"She should be here now," he said. "Very said, sir, it is time. And then again they relaxed into沉思 and waiting.

Presently a log fell out of the fire on the wide hearth, and one of the men reached to replace it. Just at that moment the door opened and a manservant appeared.

"M. le due has arrived, messieurs," said he, "accompanied by his medical attendant. He wishes to know if the doctor shall help me to support him in here, or if one of our gentlemen will do so."

The man who was sitting on the floor of the tiled room by his feet, said, "If you will excuse me, gentlemen, I do not think it would be advisable to have him here."

He entered the room, and in a few minutes entered again, supporting on one side a young man, whose head was swathed in bandages, who walked slowly and with obvious weakness.

The other men rose to greet him. "My dear Victor," said one, "you are extremely unfortunate. I fear your brain will not be at its clearest. It is a pity you were not able to post to your little office? There are no other openings in our firm, we are sorry."

"Yes," put in another querulously, "we were all greatly put-out at having had to come down here last night for nothing. You might have let us know sooner that you were not going to turn up."

The young man addressed as "Victor" smiled rather wanly at the others. "You are somewhat unsympathetic, and when I asked you to stay, I fully intended to go down here last night, but as soon as I tried to get out of bed to dress, this accursed wound in my head started bleeding again. The doctor said it would be sheer suicide to attempt to travel so young and weak."

"Well, well!" interposed one of the others, "whatever kept him, or how annoyed we were by your fruitless journey yesterday, there is no object in wasting our time in recriminations now. Let us get to business."

"Good," agreed the rest, and they seated themselves round the table, Victor being propped up with cushioning in a large chair at the foot, the fathe standing beside it, ready to help the head.

"Thank you, father," the young man began, "that you had first hinted to me what is the object of this meeting. I have been kept completely in the dark so far, and I should like to know what the necessary steps to be taken are, and why, because you ordered me so peremptorily to do so, but it was deemed unnecessary to tell you, as you can imagine."

"Good," agreed the rest, and they seated themselves round the table, Victor being propped up with cushioning in a large chair at the foot, the fathe standing beside it, ready to help the head.

I have been kept completely in the dark so far, and I should like to know what the necessary steps to be taken are, and why, because you ordered me so peremptorily to do so, but it was deemed unnecessary to tell you, as you can imagine."

"Good," agreed the rest, and they seated themselves round the table, Victor being propped up with cushioning in a large chair at the foot, the fathe standing beside it, ready to help the head.

"Thank you, father," the young man began, "that you had first hinted to me what is the object of this meeting. I have been kept completely in the dark so far, and I should like to know what the necessary steps to be taken are, and why, because you ordered me so peremptorily to do so, but it was deemed unnecessary to tell you, as you can imagine."

"Good," agreed the rest, and they seated themselves round the table, Victor being propped up with cushioning in a large chair at the foot, the fathe standing beside it, ready to help the head.

LOCAL NEWS

L. Nachbar, of Provost, is visiting Mr. and Mrs. L. Salmon.

The stork left a baby boy at the home of Mr. and Mrs. W.E. Elliott last Sunday. Both are doing nicely.

A.A. Thoresen of Unity, has been visiting his sister Mrs. P.E. Jones.

Mrs. G. Arnold returned from Edmonton Sunday with her young daughter, which was born on the 20th of February.

J.G. Clark and J.H. Elliott attended the Alberta Cattle, Sheep and Swine Breeders Association at Edmonton on Wednesday.

Sergeant Geo. Hopkins returned to Irma Wednesday. Mr. Hopkins enlisted early soon after war was declared and went over with one of the western battalions. He saw quite a few of the Irma boys in France and England.

Pte Newton Harvey arrived back at Jarrow Sunday night and came to Irma Wednesday. Pte Harvey was wounded last fall and at the time of the signing of the armistice was in England. He is looking hale and hearty now and glad to get home among his friends.

JARROW

The election is over and Mr. A. Carter is elected by a comfortable majority of 14. We wish him every success in his work during 1919. The first meeting of the new council takes place at Kinsella on Mar. 6th.

The last whist drive and dance held in the Jarrow school was a decided success, and now that the flu is about gone and forgotten, the ladies have announced their intention of holding another whist drive and dance on March 14th and expect a large crowd and a good time. Everyone is welcome so come out and shake your feet and get loosened up for spring work.

Frank McGee is busy taking listings for farm lands and town lots and expects to see considerable land moving this spring. He is doing business under the name of The Max Land and Insurance Co. A supply of forms for Mortgages, Agreements of Sale and transfers, etc., will be on hand at all times and Frank will be at your service in the lumber office as usual.

Boost for your town.

Frank doesn't some enterprising person start a newspaper in Jarrow. Nothing helps a town like a local newspaper and the merchants have an opportunity to tell us what they have to sell and what they want for it.

A large meeting of the UFA was held in the school on March 1st and there was a sprinkling of ladies to be seen at this meeting, we understand. We need their guiding influence quite often and hope they will continue to take an active interest in local affairs, in ever increasing numbers. After the UFA meeting was concluded, the question of a Memorial hall was brought up again and it was decided to open this question for discussion again as some were present at the previous meeting. After hearing several views of the question, it was decided that Jarrow district could not build a building at present that would be a credit to it for this purpose as any amount of elaborate architecture would cost a large sum of money. The committee reported that they had secured an option on 4 lots in the village at \$125 for the whole and it was decided to level up these lots and make a miniature park of the space and at a future date erect a monument of some sort on the grounds. Five canvassers were chosen as follows: North, J. A. Lennox and C. Ahlf, South, C.J. Knudson and W. Comley, and for the village F.C. McGee. F.C. McGee is Secretary and secured \$50 in cash donations at the meeting so the scheme is off to a good start already. It is hoped to raise enough cash in the village to pay for the site, which is lots 1, 2, 3 and 4 in block 8 facing on Main St and 2nd Avenue.

NOTICE To Employers

The Workmen's Compensation Act, 1918, provides that every employer of labor coming within the scope of the Act, shall forward each month a statement of his payroll to the Workmen's Compensation Board, at Edmonton.

As the Act is now effective, employers should at once communicate with the Secretary of the Board, who will forward such forms and information as are necessary.

The Workmen's Compensation Board, Edmonton, Alberta.

Pioneer Implement and Real Estate Dealer

I have the agency for Massey-Harris and Rumley Tractors. They are not just as good, but the best kerosene burning engines on the market. Get prices and catalogue from me.

Give your orders early for that big Steel Box Drill and Famous Great West Plow

Fanning Mills should be used more this year than ever. I have the old reliable Chatham. It is not a flimsy makeshift, but built to last and does the work.

Do not give an exclusive listing of your farm to any agent without a cash deposit and list with me if you want results.
